DR. VENKATESH DENTAL CARE, P.C.

Implant Patient Information and Consent Form

Dentist's Name: _____ Patient's Name: _____

TOOTH/TEETH# _____

- I have been informed and I understand the purpose and the nature of the implant surgery procedure. I understand what is necessary to accomplish the placement of the implant under the gum and bone.
- My doctor has carefully examined my mouth. Alternatives to this treatment have been explained. I have tried or considered these methods, but I desire an implant to help secure the replaced missing teeth.
- I have further been informed of the possible risks and complications involved with surgery, drugs, and anesthesia. Such complications include pain, swelling, infection and discoloration. Numbness of the lip, tongue, chin, cheek, or of a vein, injury to teeth present, bone fractures, sinus penetration, delayed healing, allergic reaction to drugs or medication used, etc.
- I understand that if nothing is done any of the following could occur: bone disease, loss of bone, gum tissue inflammation, infection sensitivity, looseness of teeth, followed by necessity of extraction. Also possible are temporomandibular joint (jaw) problems, headaches, referred pains to the back of the neck and facial muscles, and tired muscles when chewing. In addition, I am aware that if nothing is done an inability to place implants at a later date due to changes in oral or medical conditions could exist.
- My doctor has explained that there is no method to accurately predict the gum and bone healing capabilities in each patient following the placement of the implant.
- It has been explained that in some instances implants fail and must be removed. I have been informed and understand that the practice of dentistry is not an exact science; no guarantees or assurances as to the outcome of results of treatment or surgery can be made. I am aware that there is a risk that the implant surgery may fail, which might require further corrective surgery or the removal of the implant with possible corrective surgery associated with the removal.
- I understand that excessive smoking, alcohol, or sugar may affect gum healing and may limit the success of the implant. I agree to follow my doctor's home care instructions. I agree to report to my doctor for regular examinations as instructed. I understand that lack of compliance may compromise the success of the implant surgery.
- I agree to the type of anesthesia, depending on the choice of the doctor. I agree not to operate a motor vehicle or hazardous device for at least 24 hours or more until fully recovered from the effects of the anesthesia or drugs given for my care.
- To my knowledge I have been given an accurate report of my physical and mental health history. I have also reported any prior allergic or unusual reactions to drugs, food, insect bites, anesthesia, pollens, dust, blood or body diseases, gum or skin reactions, abnormal bleeding or any conditions related to my health.
- I consent to photography, filming, recording, and x-rays of the procedure to be performed for the advancement of implant dentistry, provided my identity is not revealed.
- I request and authorize medical/dental services for me, including implants and other surgery. I fully understand contemplated procedure, surgery, or treatment conditions may become apparent which warrant, in the judgement of the doctor, additional or alternative treatment pertinent to the success of comprehensive treatment. I also approve any modification in design, materials or care, if it is felt this is for my best interest. If an unforeseen condition arises in the course of treatment which calls for the performance of procedures in addition to or different from those now contemplated, I further authorize and direct my doctor, with his associate or assistant of his choice, to do whatever he (they) deem necessary and advisable under the circumstances, including the decision not to proceed with the implant procedure.
